

## Michelle Don Vito

Graphic Designer

I am passionate about design and strive to find a harmonious balance between functionality and aesthetics. I began my career as an Art Director at an ad agency working with tight deadlines on ad campaigns, photo shoots and tv commercials. Now, as a freelancer, I am able to work on all aspects of a client's business. It brings great freedom and challenges, both of which suit me well.

Part-time hockey player, surfer, mountain climber, art collector and dreamer.
